PROFESSIONAL SUMMARY

Self-taught Full-Stack Developer with 2 years of hands-on experience building high-performance web applications using React, Next.js, Node.js, and Supabase. Passionate about clean code, remote collaboration, and creative problem-solving.

EDUCATION

Self-Taught Web Developer (2023 – Present)
- Completed Udemy and Sololearn courses on Full-Stack Development, React, and Node.js.
- Focused on hands-on project learning and real-world application design.

Institute of Technology of Cambodia (2023-2024)
- Engineering Student with a focus on computing and technology principles.

SKILLS

Frontend: React · Next.js · Tailwind CSS · Redux · HTML5 · CSS3 · JavaScript (ES6+)
Backend: Node.js · Express · Supabase · REST APIs · MongoDB
Tools & Platforms: Git · GitHub · Vercel · Render · Postman · VS Code
Core Competencies: Remote Collaboration · Problem Solving · Performance Optimization · Agile Communication · API Integration · Responsive Design

PROJECTS

The Wild Oasis – Client App 🔗
Cabin booking platform built with Next.js 15, Supabase, and Tailwind CSS.
- Developed a modern full-stack booking experience with authentication and cabin management.
- Utilized Next.js server-side rendering and API routes for performance and scalability.

The Wild Oasis – Employee Dashboard 🔗
Internal management dashboard built with React Native and React Query.
- Enables staff to manage bookings, create cabins, and update pricing directly from mobile devices.
- Integrated Supabase Auth and real-time updates for a native app experience.

Natours – Tour Booking Site 🔗
Full-stack web app built with Node.js, Express, Next.js, and MongoDB.
- Created secure authentication, RESTful APIs, and dynamic tour pages.
- Deployed on Vercel with production-ready configuration and environment management.
